

Building Products

Testing and Certification Services

Valued Quality. Delivered.

Intertek is more than a testing laboratory - we are a test partner, guiding our clients through all stages of the development process to help identify all regulatory certifications needed for virtually any environment.

We help to facilitate your compliance with today's continued innovations in sustainability, fire resistance, and energy efficiency, as well as local and global regulations and building codes. Ultimately, we provide a faster, more cost-effective product testing and certification solution.

Intertek provides manufacturers with a time-efficient, cost-effective testing and certification solution. Whether you require Fire, Performance, Safety, or Weathering testing, Intertek offers the industry's fastest turnarounds on bundled testing to get your products to market quickly, while maximizing efficiency and revenues.

Utilizing our global network of labs, Intertek can test and certify your products to meet British, European and North American codes and standards, including ANSI/UL, ASTM, CSA, EPA, ICBO and ULC, and we hold accreditations from the world's leading code bodies, including OSHA, the Standards Council of Canada (SCC), A2LA, APLAC, and ILAC.

Quick Intertek Facts

- As experts in the industries of our customers, we provide a complete quality and safety solution with the services that they need.
- Intertek Group plc is listed on the London Stock Exchange – FTSE 100
- We operate in more than 100 countries with over 30,000 employees

Valued Quality. Delivered.

Our Services Include:

- Acoustical Testing
- Building Products Environmental Certification Program
- Construction Products Testing
- Doors and Frames Testing
- Door Hardware Testing
- Durability/Environmental
- Failure Analysis
- Fenestration Testing
- Field Labeling of Fire Doors
- Fire Testing
- Fire Door Testing
- Green Services
- Hearth Products Testing
- HVAC/R Equipment Testing
- ICC-ES Evaluation Reports
- Jet Fire Testing
- Locks and Access Control Equipment Testing
- Marine Products Testing
- Miami-Dade County Testing
- Personnel Certification
- Plumbing Products Testing
- Polymer Building Materials Testing and Analysis
- Research and Development Services
- Roofing Products Testing
- Spray-Applied Foam Products Testing
- Weathering Testing

The Warnock Hersey Mark

Intertek's Warnock Hersey (WH) Mark has long been the building product industry's preferred certification mark, found on more than 6,500 products ranging from fire doors to plumbing and construction products.

The ETL Listed Mark

The ETL Listed Mark is the fastest growing certification mark in North America, widely accepted by AHJs and building code officials.

How Intertek Can Help

ICC-ES® Fast Track Program. Intertek offers clients the ability to streamline the evaluation process, reduce testing turnaround time and the time it takes to receive ICC-ES® Evaluation Reports with the ICC-ES® Fast Track Program.

Claim Check Verified Program. Don't promise quality - prove it with Intertek's Claim Check Verified Program, which provides third-party

verification of product claims, assuring the public that products manufactured and sold perform as claimed.

The Claim Check Verification Program was jointly developed by Intertek and the Building Products Retailers Alliance (BPRA) to provide the building products industry assurance that product claims are legitimate.

Environmental Certification Program. With the growing popularity of *green claims*, manufacturers today face many challenges when making these claims about their products. Intertek's Environmental Certification Program evaluates the environmental impacts of building products and materials, providing manufacturers with confidence in promoting their green claims.

The program is focused on single or multiple attribute certifications, and consists of five key components:

- Writing the Test Plan
- Initial Plant Inspection
- Creation of the Quality Control Manual
- Performance Verification Tests
- Quarterly Plant Audits and Retest
